TIARIZOL™ REAGENT

Get the most information from your samples!

- ▶ **Simultaneous extraction** of RNA, DNA and proteins.
- ▶ **Ready to use formulation.**
- ▶ **Visualization of two phases**, organic phase is redish.
- ▶ **Easily scalable** nucleic acid isolation.
- ▶ **High yield and purity** (A260/280 ~2.0).
- ▶ DNA and RNA obtained can be **directly used for any downstream applications.**
- ▶ **Combined** with High-Q™ silica Spin Columns simplify RNA extraction.
